

## **HDFC Bank wins top honours in Asiamoney's Best of the Best Domestic Bank Awards**

For the past 13 years Asiamoney has revealed the top domestic banks, equity houses and debt houses in Asia's largest financial markets. This year, to mark its 25<sup>th</sup> anniversary edition, they amalgamated these winners to reveal which institutions in Asia have best stood the test of time. We're happy to share that our bank was picked as the Best Bank in India, having won this honour eight times in the past 13 years.

"It's evident from our Best of the Best Domestic Bank results that some countries possess true leaders in their field, with a vice-like grip on market excellence that is rarely dislodged," the magazine stated in its editorial. "HSBC, for example, has long stood out in both Hong Kong banking and the territory's debt market. These strengths look unlikely to dim any time soon. HDFC Bank boasts a similar depth in India, its strong management and execution capabilities impressing year after year."

Our Bank was the winner of the Best Bank in India award for the years 2002, 2005, and in six consecutive years from 2008-2013.
