

The Financial Express Lifetime Achievement Award

The Financial Express writes about HDFC Bank MD, "There are no blemishes on the balance sheet — the lender has always boasted the cleanest book in the business and non-performing assets have rarely crossed 1%. It's the most amazingly judicious use of capital."

It further adds, "Puri's bigger achievement would have to be the large liability franchise the bank has built in the face of competition from public sector banks that have always had better reach. Interestingly, half the bank's branch network today is in semi-urban and rural areas. Its strong CASA base has allowed it to continuously earn enviable margins of 4% or more".
